ROAD EXTENSION IN DISTRICT NO. 4.

A petition is now being circulated in District No. 4, asking for authority to issue additional bonds in that district for the purpose of additional road construction, and the movement is being backed by a wholesome public sentiment, the signatures representing men whose roads are already improved as well as those who have no roads.

The purpose of the movement is to build additional lateral roads in that district, connecting up the roads already constructed there and giving to various neighborhoods the benefit of the new roads as well as those already constructed.

A few years ago practically all of the county districts had attained the approximate amount of bonds which

they were permitted to issue under the law for road construction, but since that time the State Tax Commission has increased the valuations in this county and this increase has made possible the issuance of additional bonds. In the movement which is formulating in District No. 4 the plan is to build branch roads to the roads already constructed that all may have the benefits of the good road system.

WEST PORT ROAD TAXING DISTRICT.

The commissioners in charge of the West Port road taxing district have arranged to begin work upon their improved roads just as soon as the bond money becomes available and this will be a month or two after the special election, which is to be held in that district on April the first, when all of its people vote upon the issuance of \$40,000 in bonds with which to build the roads agreed upon. The scope of the road work has been enlarged and there will be a graded and graveled road out the Mayhew road to Catalpa creek, which is the Clay county line, and around the Plymouth road for several miles as well, following the old Plymouth road to the Simpson bored well; thence north one mile and thence west one and a half miles, where it will intersect the old road again. The routes agreed upon seem to meet all of the wishes of the people of that section and work will begin just as soon as the money is available.

Another election on April the first will be held in the Artesia road district, when the people of that section will vote on two propositions, the issuance of \$40,000 in additional bonds for road construction and to issue five thousand dollars in bonds with which to pay the debts already accrued in road construction in that district which remain unpaid. The people of this territory will vote on both of these propositions in separate tickets on April the first also.

WRECK ON SOUTHERN.

Train No. 10, Engineer Charles Brown and Conductor Wallace Neyman, due in this city last Tuesday evening at six o'clock from Greenville, was wrecked last Tuesday afternoon at 3 o'clock about one mile west of Stuart, the engine turned turtle, the baggage car went off the track and a general shaking up resulted.

Engineer Brown caught a mule on a small trestle and he applied his emergency brakes and jumped and he sustained severe bruises and a bad shaking up. Otherwise he would have been killed for his engine turned completely over and was badly wrecked. The passenger coaches did not leave the track and the passengers were not injured.

The train did not reach this city until two o'clock Tuesday morning and Mr. Brown was carried to his home, where he is recovering rapidly.

RED CROSS NOTICE.

Any one who will do Red Cross sewing and can not go to the work-room can phone 65. The work will be delivered to your home and called for when finished.
